ABOUT RIGA

Riga, the capital of Latvia, was officially founded in 1201. Riga is located along the Baltic Sea. The historical core of Riga is situated on the right bank of the Daugava River.

Due to its geographical location on the Baltic Sea (where East and West meets), Riga has been an important center of trade, finance and culture for centuries. Representatives of many nations have lived and worked in Riga – apart from local Livs and Latvians, Germans, Swedes, Russians and Poles also considered Riga to be their city.

Riga has unique values due to its rather intact medieval architecture. The regular building of the turn of the 19th and 20th centuries is characteristic for the planning of the historic center, oriented towards the direction of main streets in the Old City, which emerged approximately in the 14th century. In some districts of Riga, for various reasons, complex wooden constructions of that time have still been preserved, and that is an amazing phenomenon in the 21st century. In 1997, the historic center of Riga due to this valued architecture was inscribed on the UNESCO World Heritage List. In 2014, Riga was nominated as a Capital city of culture in Europe.
